

Jivan Karlapudi

jivank1110@gmail.com — +91 93071 15549 — Java Spring Boot Web Developer

Profile

Java Spring Boot Web Developer with a strong focus on backend development and RESTful API design. Experienced in building scalable web services, integrating databases, and collaborating in team-based projects. Interested in developing reliable, maintainable, and performance-oriented backend systems.

Technical Skills

- | | |
|---|--|
| <ul style="list-style-type: none">• Java (Core, OOP)• RESTful APIs• JDBC• SQL• Git / GitHub• Docker (Basics) | <ul style="list-style-type: none">• Spring Boot• MVC Architecture• Hibernate / JPA• MySQL• Maven• API Testing (Postman) |
|---|--|

Soft Skills

- | | |
|---|---|
| <ul style="list-style-type: none">• Problem-solving• Clear communication• Time management | <ul style="list-style-type: none">• Team collaboration• Responsibility ownership• Continuous learning |
|---|---|

Logical Reasoning & Problem Solving

- Strong ability to break down complex problems into smaller, manageable components and design step-by-step solutions.
- Applied logical reasoning to debug backend issues by tracing API flows, database queries, and exception paths.
- Optimized application logic by identifying redundant operations and improving control flow in Java and Spring Boot services.
- Used conditional logic and data validation to handle edge cases in authentication, CRUD operations, and API requests.
- Demonstrated structured thinking during project development by designing clear workflows for data processing and request handling.

Projects

Instant Meaning Finder – Chrome Extension

- Developed a Chrome extension to display word meanings instantly using a clean, modular design.
- Collaborated on backend logic and API integration while following Git-based version control.

Spring Boot REST API System

- Built RESTful APIs using Spring Boot with layered architecture.
- Implemented CRUD operations and database persistence using JPA and MySQL.

Store Management Web Application

- Developed backend services for managing student records and operations.
- Integrated REST endpoints to support frontend interaction.

Education

Bachelor of Technology in Computer Science Engineering
GH Raisoni College of Engineering & Management, Pune

2023 – 2027
